AGAMA Whitepaper

1. Introduction

AGAMA is a community-driven token on Binance Smart Chain (BEP-20), designed for long-term development and support of active investors. The project aims to build a strong community and provide real token value.

Agama bridges memes and utility with Ai-powered tools, NFT integrations.

Our mission is to build a playful yet powerful ecosystem for the next generation of Web2 users.

2. Problem 1

- Most tokens on the market lack real value and quickly lose investor interest.

Solution 1

AGAMA solves this issue by creating transparent tokenomics and a long-term growth strategy.

Problem 2

When a few large buyers hold the majority of tokens, they can manipulate prices and dump tokens after launch, harming the community.

Solution 2

With whitelists limits (minimum and maximum purchase caps), Agama guarantees a balanced distribution, reducing the risk of price crashes and ensuring a healthy market.

AGAMA implements a reward system for holders, strategic marketing, and liquidity lock to maintain stable token price growth.

4. Technology

AGAMA token is built on the Binance Smart Chain (BEP-20 standards), ensuring fast, secure, and cost-effective transactions with full compatibility across major wallets and decentralized exchanges.

AGAMA token is zero-tax BEP-20 token, there are no transaction fees on buying, selling, or transferring tokens. This structure ensures complete transparency, faster transactions, and easy integration with centralized and decentralized exchanges.

AGAMA is fully compatible with major DeFi protocols and wallets such as MetaMask and TrustWallet, enabling seamless trading, staking and liquidity operations. Future upgrades may include advanced smart contract features for staking and cross-chain integration, using AI-tools, further enhancing the token's utility and scalability. NFT integration.

5. Tokenomics

Total Supply: 1,000,000 AGA
• Presale: 40%
• Development: 20%
• Liquidity: 10% (locked for 6 months)
• Marketing: 10%
• Staking: 10%
• Airdrop and community: 10%

6. Roadmap

Q3 2025:

- Token launch

- Presale round 1 and 2,

- Social Media Marketing

- Community Building

Website Launch

Q4 2025:

- Presale Round 3
- Airdrop and Referral Campaigns
- Community Challenges
- Dex Listing

Q1 – Q2 2026:

- Smart contract audit
- NFT Integration

Q3- Q4 2026:

- Staking launch
- Partnerships expansion.
- AI – Powered Tools

7. Team & Partners
